Please join the friendly staff of ADI Burnaby and Dave McCoy from Proficient Audio for a product training seminar.

Proficient Editor Software:

The purpose of this course is to teach technicians how to identify audio and video requirements in a multi-zone system. The course will also instruct participants how to pre-wire, connect, program, link multiple units and update Proficient M Series electronics.

Contact ADI Burnaby to reserve your space today!

Register me for the following session(s): October 13 November 9 December 14

PLEASE RSVP by fax: 604.294.5782 or by email: dora.czegeny@adiglobal.com
